Professional IP Phone Compatible with Microsoft® Skype for Business

The introduction of the T48G SFB desktop phone with Skype for Business firmware has been designed for executives and professionals and harnesses Optima HD Voice technology - delivering crystal-clear, lifelike conversations for users.

Users will enjoy a modern Skype for Business interface over a generous 7" touchscreen, as they are met with familiar iconography and operation flows that reflects a true Skype for Business experience to minimize complexity and maximize productivity. The wireless "Better Together over Ethernet" (BToE) feature enables seamless switching between Skype for Business desktop-client and T48G SFB. Designed with Microsoft® Skype for Business compatibility in mind, and loaded with premium features like SFB conference, Boss/Admin and Outlook Calendar, the T48G SFB will raise your productivity to the next level.

Key Features and Benefits

Optima HD Audio

A seemingly magical combination of innovative software and hardware, coupled with wideband technology, deliver T48G SFB users an unparalleled acoustic performance. Advanced acoustic clarity technology - including full duplex, echo cancellation and adaptive jitter buffer - come together for an amazing face-to-face live experience.

High interoperability

The T48G SFB is fully compatible with Skype for Business, making for a rich and capable ecosystem for executives and professionals. Simply sign in with your Skype for Business account; your presence status and contacts immediately sync with the SFB client. The T48G SFB even lets users synchronize Outlook Calendar meeting schedules in real-time by simply clicking to join a meeting.

A rich visual experience

Featuring a large touch panel and modern Skype for Business interface enables rich visual presentation and easier navigation of the menu. Pin your favourite contacts directly on the home screen, easily arrange them, and place a call to them with just a tap.
